

Academic Support Resources

Meet with your teacher after school – This is your first resource. Every time you are lost, meet with your teacher to get your questions answered. Sometimes 10 minutes with your teacher can clear up a lot of confusion. It also lets your teacher know that you care about your grade and want to improve.

ROO Time on Thursdays – Where do you usually go on Thursdays during ROO Time? Ask your teacher or sign up on FlexiSched to go to his/her classroom during that time to get extra help.

Talk to your counselor – Your counselor can help you come up with a plan to get back on track. Sign up on your counselor's clipboard in the Counseling Center.

Check out The Study Zone – The King County Library offers FREE tutoring. Go to their website for more information: <http://www.kcls.org/studyzone/>

Log on to Kahn Academy – At www.khanacademy.org you can find thousands of tutorial videos on any subject you can imagine --- for FREE! Videos offered in English and Spanish.

Private Tutoring – Your teachers and counselor can give you a list of tutors that you can hire to help you at home. Just ask!
